WOOD AS A MODERN BUILDING MATERIAL

In February 2016 the **WOOD CONFERENCE Cape Town** celebrated its sixth anniversary. Over 400 interested people took the chance to attend this 1st class network platform of science, business, architecture, politics, engineering, standard commissions, education and the general society to expand their knowledge and inspiration for wood - a technologically advanced and sustainable building solution.

The WOOD CONFERENCE Cape Town has established itself as one of the most important conference in sustainable construction in green building concept in South Africa. Due to the positive resonance in Cape Town, **on 17 August 2016, the success story of the WOOD CONFERENCE continues in Johannesburg. Any one keen and interested in sustainable building is invited.**

Architectural and engineering professionals, builders, investors, designers, teachers and students have the opportunity to refresh their knowledge of timber technology, architecture, science and standards firsthand - in order to optimally cover the customer's specific and cultural needs of South Africa.

The planned **FIRST WOOD CONFERENCE, Johannesburg** presents a unique platform for the exchange of ideas, information and inspiration on the

topic of wood, its various states and applications.

A varied program filled with information, emotions, visions and knowledge has been put together for the upcoming event. Representatives from Europe and SA will present their buildings, developments and solutions.

Get inspired - join the First WOOD-CONFERENCE, JOHANNESBURG - the spiritual father, George Kuratle, looks forward to your participation.
